

I saw the future. It's Mixed Reality!

Márk Szabó¹

¹Partner Technical Strategist & HoloLens Champ, Microsoft

Microsoft HoloLens is the world's first self-contained holographic computer, enabling you to engage with your digital content and interact with holograms in the world around you.

Specialized components — like multiple sensors, advanced optics and a custom holographic processing unit — enable us to go beyond the screen and bring people, places and objects from your physical and digital worlds together with Mixed reality.

Come and try out the future yourself!
